Hi Ryan

I don't know if the Committee want to order some of these 25 is £111.99. Maybe they would like the equivalent for VE day and can give you delegated power to order when they are released.

VE Day 80 Gas-Fuelled Beacon

Bullfinch Gas Equipment

We have made many different reliable beacons over the years and details can be seen on our website. The flames are very stable in winds and the structures are also wind stable.

This beacon's burner-head is in the shape of a V, surrounded by a VE Day 80 banner. It is of lightweight construction and comes assembled and complete, with the exception of the gas cylinders, which must be purchased separately.

2 x 19kg full cylinders of propane are recommended to give a full flame for a good three quarters of an hour. If you wish for less than this then one 19kg cylinder or 2 x 13kg cylinders should be sufficient. These should be full or nearly full. The Gas Torch needed to light your beacon safely requires a 400g cylinder of propane with CGA600 fitting - Bullfinch No 1644 or Rothenberger or equivalent.

The VE Day 80 Gas-Fuelled Beacon Package contains:

- Burner unit with VE Day 80 insignia
- 2m high stand
- Ground anchor and rope for fixing the stand to the ground
- 10m hose with the regulator for connecting to the gas
- Gas torch for lighting
- Spanner
- Leak detecting fluid
- Hose assembly and Y manifold to link 2 cylinders
- Lighting and safety instructions

The above items are packed into 2 strong cartons. The tripod describes a circle area of about 1.32m diameter and the beacon has an extended height of about 2.15m.

The beacon must be supervised by two competent people at all times when lit and a fire extinguisher must always be available.

Ordering

The price of a gas-fuelled VE Day 80 Beacon is £549 plus VAT, including carriage to your door within the UK mainland

(Highlands and Islands excluded). There will be an extra charge for other areas.

You can alternatively purchase a Burner only at £349 plus VAT to fit the stands of previous Bullfinch Beacons.
