

## Message from the Mayor

During these difficult times, I would like to thank all the staff at Gwrych Medical Centre, the town's pharmacies, supermarkets, individual shops and local tradespeople along with all the staff at both our local hospitals who are all pulling together to make our residents safe. It's not an easy task to try to keep everyone happy and please be mindful they are all trying to help us under very difficult circumstances.

It has been made apparent over the last few days how many people are volunteering and making every effort to help others, some thoughtful acts of kindness by many wonderful people, the local shops are being exceptionally kind, you know who you are and everyone appreciates what you are doing.

Abergele has always had a wonderful community spirit, although many of our residents are now having to self-isolate, the whole community seems to be rallying around to keep in touch with each other and neighbours.

If we all keep positive, our town can come out of this even stronger and better than it always has been.

Please all keep safe and by trying to help others, please do not put yourself and your families at any risk.

Kind regards to you all.  
Shirley Jones-Roberts  
Abergele Mayor.
