It was RESOLVED to RECEIVE, APPROVE and SIGN the Minutes of the last meeting of the Events Sub-Committee held 19th July 2021.

540/21 **Materion yn codi cofnodion hynny - Matters arising from the minutes**

a) Christmas 2021:

- i) The Chairman welcomed Mr Geraint Williams from GWP to the meeting who provided members with an overview of 2021 Christmas installation.
- ii) The report from GWP regarding the Christmas lights was RECEIVED
- iii) The Schedule of checks carried out during the 2021 period for motifs and trees was RECEIVED.

Geraint explained that GWP has an agreement with a local cherry picker company. Due to the unprecedented weather conditions causing damage to many towns, the demand for cherry pickers were high and he was unable to use this local company and therefore was forced to use a company further afield in Deeside which resulted in delays in repair times.

GWP highlighted the following RECOMMENDATIONS from his report:

- (1) Pensarn lamp column no.10: GWP suspects that the cable is shorting out internally and requires rewiring. Scottish Power need contacting.
 - ACTION: Cllr Heap-Williams agreed to contact Scottish Power to try and resolve this issue.
- (2) Pensarn roundabout ref. 3: Replacement required.

- (3) Replacement AC/DC converters for damaged motifs. If the AC/DC converter is not the issue then other repairs to existing motifs are not financially viable.
- (4) To use 8 packs of lights per Christmas tree to be most effective.
- (5) Have spare drivers to deliver speedy repairs
- (6) If ATC wish to use the 3D stars then 16 brackets for each motif will be required.

Members enquired about surge protection. GWP explained that currently there is no room in the box, although, there may be the option to install such protection inline.

- ACTION: GWP agreed to provide the council with a quote for the above recommendations.

Geraint Williams retired at this juncture.

- iv) The copy of the notes on the installation of the lighting scheme for 2021
The Clerk informed members that due to GWP not having a cherry picker that they were on occasions asking the Council to pay £500 for additional hire of the cherry picker and this was giving a false impression of the costs for the installation and an unfair advantage to the contractor when quoting for the install. Members should be aware when considering future contracts.
- v) A copy of the current motif specification was RECEIVED. The Clerk and Deputy Clerk informed members that Scottish Power had confirmed that the cost for unmetered supply is to increase by 400% for the next year.
- vi) An update on the insurance claim for the storm damaged motifs was RECEIVED.
The Clerk made a claim with Zurich for £1,500 damage incurred by storm Arwen. Zurich have failed to get in contact with the council.
➤ ACTION: Clerk to follow up with Zurich.
- vii) An update on the lamp column socket inspection test The Clerk informed members that there had been a delay on the testing and that it was due to be carried out in the next few weeks.
- viii) An email from Andrew Wood with regard to the future of the Mini trees. Cllr Wood outlined that many of the trees were now time expired and that the scheme had drawn to its natural end. The Clerk informed members that there was no storage space at in the store.

RECOMMENDATION to look at other options.

- ix) Remedial work required was DEFERRED to be considered once the quotes above are received.
