Specification Proposed Signage

Description
Fingerpost directional signage.
Robust aluminium extrusions. Each Octopus
column has eight facing positions.

Material
Aluminium

Finish
Gloss

Colour
Dark Blue & Mid Blue

Font
Century Gothic

Fixing
Concrete rect extension and base plate

Octopus Heritage System

Benefits / Disadvantages of This System

A modern industry standard sign system. The signs can be colour finished. These systems are much more accessible to people with disabilities. Replacement signposts to be addressed. Due to the robust finger system making the system more robust and long lasting. The system is designed to point in weather, strong gusts and add extra road markings. The design is robust and the signs are made from recycled materials. The signs are made from recycled materials. The signs are made from recycled materials. The signs are made from recycled materials.

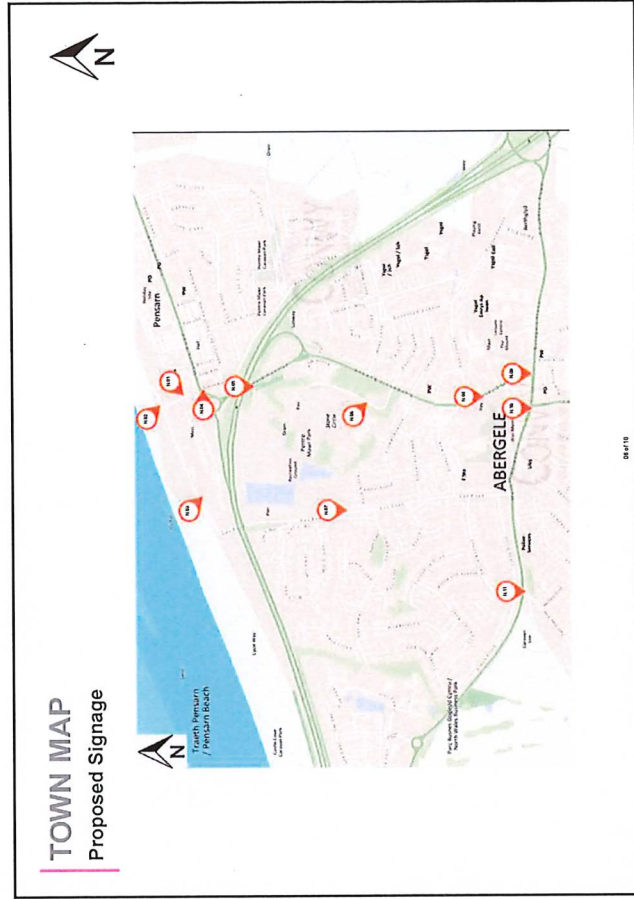

Conclusion On Wayfinding

Currently Abertawe has its existing wayfinding signage. Clients our experience in wayfinding, signage materials and products, the survey undertaken and consultation received, our recommendation would be to install 11 new fingerposts in Abertawe.

- Below are some key reasons for our recommendation
- There are currently no fingerpost in Abertawe and we recommend 11 new locations.
 - Modern fingerpost systems are readily available and cost effective.
 - Modern systems look panels in place meaning they cannot be adjusted without having the sign replaced. This means that the sign will be replaced with a new sign that is also not visible when multiple signs point in the same direction, ensuring they stay perfectly clear.
 - Modern systems are extremely well engineered and used in most Town Centres throughout the UK, offering excellent weather resistance and longevity.
 - They are also easily operable. Signs can be added, removed or replaced.
 - The signs can follow any design you wish, including the use of creative historical looking crests, leaves and designs. They can include crests and logos and be colour coated, making them unique for each town.
 - Guides, ensuring the signs are legible and readable for all.
 - Retaining sockets, ground levels and base plates can also be considered to finish the signs and ensure they are secure. In some cases the signs may need to be reinstalled temporarily removed for access or areas prone to vehicular damage.

17/4/18

Managed by Place Plan and Abergele Town Council in conjunction with community groups and Conwy Borough County Council.

Autumn 2023

- 1) **Improve shop fronts** 109
- 2) **Enhance Promenade** 99
- 3) **Public conveniences** 93
- 4) Pensarn and Belgrano development 84
- 5) Improve Pentre Mawr Park 72
- 6) Street Cleaning 71
- 7) Allotments 43
- 8) Waymarker project (Maps and pathway signs) 37
- 9) Promotion of Historical sites (Churches, listed buildings, Gwrych, the Mount) 33
- 10) Men shed/She shed Community hub 28
- 11) Smarter Towns (Business promotion technology) 24
- 12) Wi-Fi for Promenade 12
- 13) Menter Iaith – Welsh Language Promotion 12
- 14) Dementia Champions 12

Now

- 1) **Improve shop fronts**
-Do we want to look at a town wide scheme again, or do we want to look at a smaller ATC grant-based scheme similar to what was done during I'm a Celeb, or other?
Note: May Business forum (6 attendees) stated that match-funding schemes are only suitable for projects that are beyond their capacity ie too large, and also they do not have the appetite for / need for / match-funding for such projects and if they did have access to match funds, they would simply go ahead and complete the smaller projects they do want to do such as signage and painting. However, new match-funding scheme has been launched with up to 80% coverage of costs, for projects costing £3000 to £15000, so will need to liaise with CCBC to monitor number of applications, and to liaise with Business Forum
- 2) **Enhance Promenade** Are there ideas you wish for me to explore?
- 3) **Public conveniences** agreements made, ongoing

However, some of the priorities that are lower down the list include projects which would be visible and contribute to the overall "curation and positioning" and "development of / community wellbeing in" our town

Smarter Towns (Business promotion technology)

- Improved website and QR Boxx for greater dissemination of information, presentation of collective offer, opportunities for cross-promotion; potential for future SMART towns projects with second aerial having been approved

Street Cleaning (weeding and maintenance also)

- Town Council scheme?

NOTE: Currently CCBC is conducting a review and re-organisation, with a focus on bins, but also with aim of in-building resilience / efficiencies in terms of collection residential and public bins, and freeing up operative time for other tasks, however, the outcome will not be known until late August

Town Operative charged with litter picking may go

Weeding gone down from 3 x per year, to 1 x per year, to preserve integrity of built structures, but not for aesthetic reasons.

KBT Town Council conducting second round of weed spraying on their own

Nature Trails (Waymarker project) (Maps and pathway signs)

- Link to QR Boxx, tagline "between the mountains and the sea" , USP for Abergele, could be expanded to include more trails over time

Other priorities

- Engagement and Promotional support

Regeneration projects managed by Welsh Gov, Conwy Borough County Council and the Regeneration Board

Autumn 2023

- 1) Traffic management 145
- 2) Western Gateway development 104
- 3) School capacity and improvement plan 103
- 4) Beach management of triple SSI at Pensarn to Ty Crwn 82
- 5) Pensarn and Belgrano development 82
- 6) Active travel schemes (Safer pathways for children) 63
- 7) Pump track – similar to a BMX track 50
- 8) Sea Road and Primrose Hill Bridges 49
- 9) 4G Sports pitch and facilities 40
- 10) Cemetery space 8

Now

- 1), 2), 3) – updates – what other action / involvement?
- 7) Progressing
- 8) Discussion being re-opened with new headteacher

What are the main areas that Abergele could improve in?

Autumn 2023

- 1) The physical appearance of the town centre - a nicer environment **171**
- 2) Cultural activities/events (Festivals, parades, fairs) **133**
- 3) Access to public services and banks **116**
- 4) Evening time offer e.g. restaurants, pubs & bars 99
- 5) Retail offer 88
- 6) Leisure and sports facilities 84
- 7) Information on town centre e.g. maps, town guide etc 38

Now

- 1) The physical appearance of the town centre - a nicer environment
See Priorities document 1 July 2024, point 1 (link to shopfront improvements, street cleaning)

WG Brilliant Basic Fingerpost project

Other?
- 2) Cultural activities/events (Festivals, parades, fairs)

Rolling Events programme with Events Committee and Deputy Clerk,

Beach of Dreams

Menter Iaith link?

Other?

NOTE: Budget would be needed for extended programme of festivals, parades, fairs etc
- 3) Access to public services and banks

Cash Access Hub
Toilets

Other?

However, some of the priorities that are lower down the list are being explored:

- 4) Evening time offer e.g. restaurants, pubs & bars
- 5) Retail offer

CCBC conducting consultation and review, with regional NTE group having met once thus far

Business Forum / Open network event in September to link into these groups, promotional opportunities offered via CCBC Business Forum facilitator, potential for cross-promo and collaborative offer via QR Boxx

Other?
- 6) Pumptrack, 4G community projects
- 7) Information on town centre e.g. maps, town guide etc
QR Boxx

In your opinion what is Abergele's best selling point?

- 1) Beach and Promenade 171
- 2) Tourism offer - e.g. Gwrych Castle and Manorafon Farm 101
- 3) Woodlands 84
- 4) Parks 71
- 5) Independent high street and architecture 55

What feature of Abergele should our events celebrate and promote?

- 1) Beach and Promenade 190
- 2) Woodlands and walks 163
- 3) Parks and Wildlife 153
- 4) Cultural and Heritage e.g. Manorafon, Gwrych etc 93
- 5) High Street and Architecture 81
- 6) River Gele 43

*Some of the above can be addressed via QR Boxx in the first instance, in terms of marketing and promotion, as well as uptick in social media content creation.
